Building EazyGrad Into India's Career Media Brand

A 90-day social media strategy designed to make EazyGrad the go-to career brand for India's young professionals.

EazyGrad

Social Media Strategy

90-Day Growth Plan

Instagram • LinkedIn • Creator-Led Content

Monthly Ad Performance Report Presentation

Strategy Overview

My Objective

Build EazyGrad into a career-first content brand that working professionals trust before they even think about applying for an online degree.

My Approach

Instagram is the hero platform for discovery & community.

- Launch a recurring content IP: Career Reality Check.
- Mix relatable career content with educational content using a 70-20-10 content strategy.
- Scale through AI-assisted workflows and micro creator collaborations.

Career-First Content

Talk about promotions, salaries, career confusion and skill gaps before talking about degrees.

Community Building

Encourage comments, polls, DMs and real career stories to build trust.

Creator & AI Workflow

Use AI to speed up production while keeping the final content human. Collaborate with niche career creators for credibility.

Measure Business Impact

Focus on saves, shares, watch time, DMs and qualified leads instead of vanity metrics.

WHY INSTAGRAM? THE HERO PLATFORM

WHY INSTAGRAM?

Working professionals aged 22–28 already spend hours on Instagram consuming career advice, office memes, productivity tips and success stories.

Instead of interrupting their feed with ads, I want EazyGrad to become part of their daily content consumption.

➤ Discovery

Organic Reach

- Reels help us reach people who don't follow us.
- Storytelling performs better than promotional posts.
- Easy to test multiple hooks every week.

➤ Community

Build Trust

- Stories for daily interaction.
- Polls & Q&A.
- Comments become future content ideas.
- DMs become qualified leads.

➤ Engagement Rate

Repurposing

Newsletter
One content idea = 5 content assets.

Career Reality Check

A recurring content series built around real career struggles faced by young professionals.

Instead of talking about degrees every day, I'll start conversations around promotions, salary growth, career confusion and skill gaps. Every episode ends with practical advice and naturally positions EazyGrad as the trusted guide, not just another admissions platform.

IP Concept

Every episode starts with "Career Reality Check"
Then it addresses one relatable career situation in 30-60 seconds.
Examples:

- Your degree isn't the problem
- You're not underpaid because you're unlucky
- Promotion isn't based only on hard work

Content Format

Reels (Primary)
Carousel (Support)
LinkedIn Post (Authority)
Stories (Daily Interaction)
Frequency
3 Reels/week
2 Carousels/week
2 LinkedIn Posts/week

How it becomes an IP

Month 1 → Instagram Series

Career Community

SCALING CONTENT WITH AI & CREATORS

My Workflow

AI speeds up execution, not creativity.

Everything is manually reviewed before publishing.

Content Workflow

Research

Google Trends
Reddit
Perplexity

Create

ChatGPT
Claude
Canva
Photoshop

Edit

CapCut
Premiere Pro
ElevenLabs (when
required)

Publish & Analyse

Meta Suite
LinkedIn
Instagram
Insights

AI Tools

- Research Faster
- Generate first drafts
- Creative ideation

Micro Creators

- Career Coaches
- HR Professionals
- Working Professionals
- MBA Creators

Repurpose

EazyGrad

90-Day Roadmap

30 • 60 • 90 Day Roadmap

The first 90 days are focused on validating content, building trust and creating a repeatable content engine. Instead of chasing viral posts, the goal is to build a strong foundation that consistently generates engagement and qualified leads.

 **Build → Day 30**

 **Grow → Day 60**

 **Scale → Day 90**

3K → 8K → 15K followers

50 → 150 → 300 qualified leads

Day 30 – Build the Foundation

- Launch Career Reality Check as the flagship content IP.
- Publish 3 Reels + 2 Carousels + 2 LinkedIn posts every week.
- Test different hooks, thumbnails and posting times.
- Start collecting audience questions for future content.

Success by Day 30

- ✓ **3K Followers**
- ✓ **50+ Qualified Leads**
- ✓ **10%+ Reel Save Rate**

Day 60 – Build Trust & Community

- Double down on top-performing content.
- Collaborate with career creators, HR professionals and working professionals.
- Launch weekly Story polls and Q&A.
- Share student success stories and testimonials.

Success by Day 60

- ✓ **8K Followers**
- ✓ **150+ Qualified Leads**
- ✓ **2 Creator Collaborations**

Day 90 – Scale What Works

- Repurpose winning content to LinkedIn and YouTube Shorts.
- Launch LinkedIn newsletter.
- Create a community around Career Reality Check.
- Build repeatable content systems for long-term growth.

Success by Day 90

- ✓ **15K Followers**
- ✓ **300+ Qualified Leads**
- ✓ **1M+ Organic Reel Views (combined)**

How will I execute this strategy every week?

Content Execution Plan

Weekly Content Execution Plan

Execution Philosophy

Instead of creating random posts, every piece of content will support one goal building trust first and driving enquiries second. Each format has a clear purpose in the content journey.

Publishing Frequency

- 3 Reels / Week
- 2 Carousels / Week
- 2 LinkedIn Posts / Week
- Daily Stories

Reels (Attract)

- Hook within first 3 seconds
- Career Reality Check episodes
- Trend-based storytelling
- Strong CTA to DM or comment

Carousel (Educate)

- Break down career myths
- Explain online degrees simply
- Save-worthy educational content
- Clear swipe journey

LinkedIn (Build Trust)

- Career insights
- Student success stories
- Founder-style thought leadership
- Professional audience

Which metrics I will track, which will I ignore and why?

Success Metrics

Track	WHY?
SAVE RATE	Shows people found the content valuable enough to revisit.
SHARE RATE	Indicates the content is worth recommending to others.
WATCH TIME	Measures the strength of the hook and storytelling.
PROFILE VISITS	Shows curiosity and brand interest.
QUALIFIED DMS	Strongest signal of intent and potential admissions.

Save Rate

Target: 8–10%

Watch Time

Target: 60%+

Qualified DMs

Target: 300+ in 90 days

I'll Track

- Save Rate
- Share Rate
- Watch Time
- Profile Visits
- Qualified DMs
- Website Clicks

I'll Ignore

- Likes
- Follower count (alone)
- Viral reach without enquiries
- Vanity impressions

Because a viral post without enquiries doesn't help the business grow.

Success isn't measured by views alone. It's measured by how many people trust EazyGrad enough to take the next step

Content Execution Showcase

Instagram Reel

Instagram Carousel

Linkedin Post

Purpose:

- Grab attention
- High watch time
- Drive DMs

Purpose:

- Increase saves
- Educate audience
- Build trust

Purpose:

- Thought leadership
- Professional audience
- Organic reach

My Final Thoughts

Social media isn't just about posting consistently. It's about making people stop, relate, trust the brand and finally take action. My focus would be to build content people actually remember not content they scroll past.

Educate First

If people learn something from us, they'll come back even when they're not ready to apply.

Build Trust

Real stories, useful advice and honest guidance will always perform better than constant promotion.

Grow with Purpose

I don't want viral content for one day. I want content that keeps bringing the right audience every week.

I know not every post will go viral, and I'm okay with that. I'd rather create content that genuinely helps people and consistently brings the right enquiries than chase vanity numbers. I believe that's how EazyGrad can build a brand people trust not just another page people follow. Thanks for taking the time to review my strategy. If I get the opportunity this is exactly how I'd approach growing EazyGrad's social presence.
